

I wish to express my concern regarding the priority of LPFM over FM translators. I do not want to lose my signal for K-LOVE in my area. I currently listen to K-LOVE everyday as my preference to other programming. I feel that it provides a unique and refreshing alternative to what is available on other frequencies. We should all have a choice in what programming we listen to and I would be extremely disappointed to lose the opportunity to listen to K-LOVE.

Everyone in our community should be provided the same opportunity to listen to the uplifting message of hope provided by K-LOVE.
